Compare Your Dental Options!

A Network Discount Dental Plan may be a wise option when considering ways to save money on dental and other health care costs. Network discount dental plans are often more affordable than most dental insurance plans. With the high cost of dental insurance premiums along with an annual cap that is usually between \$1,000 to \$2,000 as well as deductibles, the insured person then has to pay out of pocket for expenses over the cap. Dental insurance plans do not cover cosmetic dentistry so if you just want to look good you pay full price.

Discount plans do not carry a cap and offer unlimited use throughout the membership period that can include savings on cosmetic procedures like braces, dentures and whitening etc. Compare your personal experience to any of our Network Membership discount plans and you will be pleasantly surprised at what you will find.

How it Works

North American Dental Plans are a membership based network offering discounted dental services from in-network providers. These membership based plans help employees, retirees and their families save on dental care with one low annual or monthly fee. After that you just need to show your membership card at the time of service and pay the discounted fee. Discounts can range anywhere from 5% to 60%, depending on the type of procedure and can vary depending on the network plan you choose. Because there are no limits on use or caps to worry about, consumers aren't limited by the number of services they receive in a given year, and there's also no paper work to fill out for reimbursements. For those seeking cosmetic services, network membership discount dental plans may be the way to go since they often include cosmetic dentistry.

Disclosures: THIS PLAN IS NOT INSURANCE and is not intended to replace health insurance. This plan does not meet the minimum creditable coverage requirements under M.G.L. c. 111M and 956 CMR 5.00. This plan is not a Qualified Health Plan under the Affordable Care Act. THIS IS NOT A MEDICARE PRESCRIPTION DRUG PLAN.
