

PROVIDER NETWORK OPTIONS

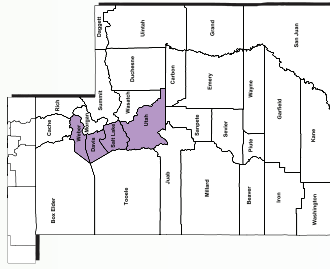

Choosing the right network is important for your employees. SelectHealth offers three provider and facility networks that range in size and coverage area—Select Value®, Select Med®, and Select Care®. Smaller networks generally have lower premiums. Employees can search for participating providers at selecthealth.org/provider, where they will also find patient satisfaction and quality ratings for many providers and clinics.

Select Care is our largest provider network and includes the University of Utah Hospital. It extends into rural areas of Utah where Select Med and Select Value are not available. PARTICIPATING HOSPITALS AND CLINICS

SelectHealth members have access to Intermountain Healthcare's nationally recognized facilities and contracted hospitals and clinics.

Coverage

Coverage is provided through participating providers for daily hospital room and board, miscellaneous hospital services, anesthesia services, in-hospital medical care. Coverage is subject to deductibles, copay provisions, or other limitations that may be set forth in the Contract.

Emergency Care

For an emergency, members should call 911 or go to the nearest hospital. If you are away from the same at all emergency rooms, members will save money by visiting participating hospitals.

Urgent Care

For an illness or injury that is not life threatening but needs medical attention within 24 hours, members should call a participating provider.

Outside the State of Utah

If members have an emergency or need urgent care outside of Utah, participating benefits apply to services received in a participating Urgent Care facility, or emergency room. Members can save money on out-of-area services by using Multiplan or PHCS providers and facilities. To find one, call 800-678-7427 or visit multiplan.com.
