

## Provide your employees with the power to give.

**TASC GiveBack is a powerful giving tool** that easily connects your employees with over one million charities worldwide.

Think of it as a 401K plan for charitable giving. We'll set up a co-branded GiveBack website for your employees to sign up and manage their giving. They decide how much they want to give, and the donations are deducted right from their paycheck to fund their GiveBack accounts. As the balance grows, they decide which charities they want to support and when. Employee funds are tax-deductible and 100% of donations go to their selected charities, the ones that matter most to them.

### **It's easy to start giving with TASC GiveBack**

The best way to foster workplace giving is to provide a benefit that truly engages employees. With GiveBack, it's easy for employees to sign up and find their favorite charities from global to local. You can set add funds to employee accounts through donation matching or as a reward for a job well done. Employees can set up their own fundraisers and advertise through social media. We make charitable giving fun and easy.

**TASC GiveBack** can promote your brand, support your community, and attract great employees. What inspires you to give back?
